How Fate Puts Down the Mighty and Crowns Kings.

POOR OLD COMPANINIAT OPERA

The New Tenor and the Old-A Memorable Scene in Madrid When Alfonso Saluted Campanina.

Never was I made so conscious of the pathos of human life as on Saturday afternoon. I have seen friends die. I have stood in a courtroom and witpessed a man, afterward proven innocent, convicted of an infamous crime-watched his agony of mind, his compiete surrender to the merciless injustice of fate. I once held the hand of a young girl, mortally hurt in a railroad accident, as she whispered with her last breath a loving message to be carried to her affianced husband-she dying alone among strangers. It had always seemed to me that nothing more pathetic ever could cross the line of my life. But I was mistaken.

On Saturday I went to the Metropolthan opera house to meet a friend who was attending the matinee. I arrived just as the grand finale of "Die Meistersinger" was being given.

As I passed into the foyer it was ut terly deserted. Everybody about the place had crowded to the doors leading into the auditorium to hear the con-

CAMPANINL

cluding effort of the musical lion of the hour, Jean de Reszke. The applicase broke forth as I entered the building It was tremendous. The great struc-ture literally quivered. The air was charged with the magnetism of appre ciation. I involuntarily stood still as one does when the indescribable sensation of an earthquake is first experienced. Then I took a step.

Out of the corridor to the right came a short, heavy man with a companion. He was gesticulating savagely. His usually florid face was livid; his eyes glared in all directions, and he literally rushed to the street, to the open air I did not hear a word, didn't need to The face told its own story. Not hatree or dislike of the artist's work, nor criti cism of the company, but remorse! Re gret to have lived so long, perhaps, How out of place sympathy would have been but I'd have liked to have ten ered it then and there to the idol o the opera-goers fifteen years ago, to the earnest, honest faithful man who hur ried away to lose himself in the crowd on Broadway-to Italo Campanini.

Every man and woman who remem bers the great tenor at his best, and who had stood by my side would hav feit equally sad. Personally, I have witnessed his triumphs in all parts of the world. I remember his appearance in the Opera Real at Madrid as Jose. when the final scene in Carmen was given as never presented elsewhere. The parade in front of the gate of the Plats de Toros was real. Fasquelo, the bravest espado of all Spain, was on the stage out of special compilment to the great tenor, with the Toledo rapier in his firm right hand that had slain a hundred La Manchan bulls. It was a great spectacle and lengthened the night's function by half an hour.

Let me see if I can give the reader a picture of the scene. In the real fight the procession of the combatants takes place in the arena. With that single change, the incidents followed each other just as they did at the great amphitheuter near the Gate of Alcala.

JEAN OF RESER

It is no engageration to say that every man in that parade was known throughout the kingdom. First were the offiners of the police of the capital, dressed In ancient Spanish coatume. Then the pleadores, reconstad, as they should be, on horses with "the off ape" bandaged. Next came chalos, or combutants on foot, arrayed like Figure with their complet abusels. Then the bundarillos, with their short barbed spears. Finalby the matadors, or killers, and, after just an interval, the Great Fasquelothe coust fearless bull fighter of the century! Even King Alfonso, in whose honor all this pageant had been organhad recorned the sainte of the trim little man who stood facing him rather than the andience in the center of the Mars. Nobody can understand the popular enthusiasm for the royal toreswho never has lived to Spain. The Recamillo of the night entered without attracting much attention, and passed behind the curtain. Then from the left Campanint, as Jose darted upon the stage. The slience of the Escurial fell upon the bound! It is no exaggeration to my that the splendid pageant that had preceded one atterly biotted from the mind of away parson, present. Campacini scored the hit of the night. by his wonderful ability as an actor estite as while as by his rojee. The

king, who had saluted Fasquelo, the pride of the peninsula and entitled to wear his hat in the presence of his ruler like a grandee of Spain, rose to his feet, clapped his hands and appliand A Question Often Asked and Fully ed like any other enthusiast. Campanini was a generous fellow while his prosperity lasted. Not that he threw money away, or gave it to his friends; but he encouraged young singers, bought himself a pretty country place near Padua, where he entertained guests in truly hospitable fushion and lived well, but never extravagantly. flia chief mistake was the liberality with which he dispensed his voice. He was always willing to sing for any charity; he was obliging to the verge of generosity with his managers. Time and again he has volunteered to sing when his associates or the second tenor were "indisposed." I was present at her. The opera was "La Sonambula." The utmost confusion followed after the poor prima donna was led off the stage in tears. Colonel Mapelson announced that the money would be refunded at the box; but Campanini, who was in the foyer with his wife, at once volunteered to sing in "Il Trovatore." After a delay of half an hour the cur tain rose and the opera was given to the entire satisfaction of the vast audience. The night was saved, but for that service he positively declined to receive a dol lar. This is only one of many instances of similar character, all of which redound to the glory of Campanini, but prevented the growth of his bank account for protection against the rainy

season of his life that has now set in. The sadness of poor little Marie dividual is permanently well.

A valuable ramphlet of thirty-two pages, setting forth in detail the treat-Aimee's last days is quite unknown in this country, where she had so many devoted admirers. I recollect distinct ly her first appearance in New York under the opera bouffe regime of Jim Fisk. Her success was immediate. We had heard Tosti, but Aimee's vivacity and suggestiveness were a revelation Not one of her successors up to the time of Theo was worthy to be thought a rival. Persigny, Montaland and several other freaks were brought over from the gay capital, but for fifteer years, or until her voice failed, Aimee

was easily the popular French favorite. Yet the end came, and a very gloomy end it was. I remember to have picked up a copy of Figaro in Paris one morning during the summer of 1887. Her used .- L. C. The funeral was set down at an early hour on the following day. Another American and I undertook to go, and met at the Vincennes station in the cold, raw morning air. We alighted at a little station near Nogent, in the Marne valley, and found a sleepy cab man who drove us through the mist several miles to the quaint little cottage to which Aimee had passed her last days There was no splendor. The mourners appeared to be confined to a few neighbors, an aged bonne and a peaked-faced girl of perhaps thirteen years. This little child appeared utterly friendless, and was plunged in the deepest sorrow. She spoke of the dead singer as "auntie," but the hard featured old maidservant wouldn't clear up the mystery, and a neighbor who inthrated that she could explain positively refused to do so. The best opinion obtainable was that the gir was a waif that Aimee had adopted in times of prosperity; but during the three years of the mistress' illness the child had fared little better than a

The funeral service was brief as that of a pauper's. In a few minutes the little procession wended its way to the cornetery, and we two Americans found ourselves among less than a dozen mourners. Albert Wolff was there, I remember, and in my heart this net of companion made a final effort to accortain the fate of the lonely child. She said she was going back to the house she had left, and with this indefinite reply we had to be satisfied. Aimee's efforts were hardly worth enumerating. A few thousand dollars would cover

A Fishy Chicken Story.

When a man begins to tell a story about fish he is at once labeled as awell, as a story teller. This is not a fish story, says a Boston paper, but a chicken story that comes all the way from Colorado. A chicken fancier was troubled exceedingly by the propensity of his brood to scratch up his garden, so he set to work to solve the problem of prevention. After siaborate experiments he succeeded in crossing a breed of long-legged brahmas with shortlegged bantams in such a way that the chickens had one long leg and one short one. When they attempted to scratch they lost their balance and fell over. which, after a few trials, was sufficient to show that scratching was impossible, and they gave it up.

Notwithstanding that day after day we are in receipt of letters from grateful patients who, like the above, have been cored of catarrh, yet thousands of people go on asking the oft-repeated ques tion, "Can entarrh be cured?" Cer-tainly catarrh can be cured. Thou-sands are cured of whom we never hear by taking Pe-ru-na. Thousands are cured who write of the fact, asking us to publish their letters for the ben-fit of others. But an unnumbered multitude of people whose lives are made miserable by chronic catarrh, have yet to hear or become convinced that Pe-ru-na is precisely the remedy for which they have been vainly searching all these years. DRY ITCHING SCALES THAT CRACKED @ AND POPPED OPEN. LINDLEY, STEUREN Co., N. Y., April 11, 1860. FOSTER, MILBURN & Co., Buffalo, N. Y.

GENTLEMEN: - When about ten or twelve years old I was troubled with cracks across the palm of my left hand, and when they healed the trouble broke out on my head, and every winter it would come out as a sort of tetter and make scales all over my head. I have not been free from it a single winter since, but it was worse last winter after I had

winter since, but it was worse last winter after I had the grippe, for then it came out in spots all over my body. I had a declor examine me, and he told me that there was no cure for me. I get worse and worse. Scales would form over the sores and then dry out until they would crack and pep open, showing a watery matter. My skin was all like a dry wrapper. It felt as though a had dried on me. The scales were so bad that they would collect in the bed and have to be shaken out. It was about this time that I component with a like a large work of the large was about this time. that I commenced using B. B. E. I was so had that I was ashamed to take my hat off before a neighbor. I had used five bottles of another medicine without noticing any effect; but when I commenced to take B. E. B. the sores came out thicker than before, and they burned like fire; they were immense blotches of fire that would burn so I could not sleep. The way they burned and itched can not be told, and I hope no one else may ever know from experience. The only relief I could get was from washing the sores with some S. B. S. I stuck to the medicine and was on the fourth bottle before I could see that I

was really better, although I know that it was better to get such rottenness out of my blood than to mave it stay there. I did say once that I wished I had never commenced taking S. S. S., but my wife encouraged me, and to-day I thank her for the advice, for I sm in good health now, and I don't believe I ever would have been with my blood in such a condition as it was. My scalp now is clean and clear of all scales and tetter, and on my body there are only small spots to show where the sores were, and these spots are free from

scales. I do not doubt but that the cure will be perfect. I am now on the sixth bottle and will take more until every spot is gone. I firmly believe that Burdock Cloud Bitters will cure the worst disorders of the blood, for such certainly was mino.
